

PRESENCE™ MOBILE SERIES

Hear  
and be heard  
Wherever

## When Style Meets Performance

Featuring the ultimate in sound quality from one of the most revered names in high fidelity audio, award winning PRESENCE™ packs 70 years of sound heritage into an iconic design, to give you peak performance in the office or on the move.

# The Ultimate Headset for Getting Your Message Through

With Sennheiser PRESENCE™ you get the best of both worlds: **You** get the benefit of superb sound and **your listener** gets to hear you clearly – no matter where you're calling from.

With its best-in-class 3 microphone system, and advanced noise cancelling features, PRESENCE™ consistently delivers exceptional sound in different environments – especially for your listener. From noisy office, through a windy car-park to the relative quiet of your car, PRESENCE™ takes background noise in its stride and adapts seamlessly to give the consistent listening experience that professional communication demands.

With its extended talk-time and comfort enhancing choice of wearing styles, this iconic headset is designed to actively help you and your listener focus on your conversation in the office or on the road.

# Uncompromising Sound for You and Your Listener

PRESENCE™ packs a wealth of advanced sound technology into its slim discrete design to give demanding professionals peak performance on the move.

## Best-in-class sound

A unique system with 3 digital microphones ensures legendary Sennheiser Voice Clarity for a clearer and more natural audio experience.

## Adapts to all sound environments

SpeakFocus™ and WindSafe™ technologies provide your listeners with the ultimate in speech intelligibility in all environments.

## Sound protection

ActiveGard® technology protects you from acoustic shock.

## Maximized UC performance

Plug and play compatibility with leading UC platforms to get the most out of your UC environment.

## Choice of wearing styles

3-in-one wearing solution for maximum comfort and convenience.

## Multi-connectivity

Seamlessly switch between softphone and mobile calls, effectively replacing your in-office headset as well as your mobile headset.

## Extended talk time

8 hours' wideband (10 hours' narrowband) performance for a full day on the move.

## Increased range

Freedom to move up to 25 meters from PC with dongle, depending on environment.

## Charger stand

Keep your PRESENCE™ accessible and charge simultaneously when you're in the office.

### **SPEAK FOCUS™**

#### **SpeakFocus™ technology**

When it comes to business, clear communication is crucial. SpeakFocus™ technology focuses on your voice to deliver crystal clear sound, making it easy for listeners to hear what you're saying – even in noisy environments.

### **WIND SAFE™**

#### **WindSafe™ technology**

Be sure that your message gets through – even in challenging outdoor environments. WindSafe™ technology reduces wind noise to ensure the clearest possible sound is sent to your listener – and that your answers aren't left blowing in the wind.

#### **Advanced own-voice detection technology**

When you are speaking, an own-voice-detector detects your voice and optimizes speech intelligibility as well as reduces background noise for your listener. In addition, when you are silent, all distracting background noises such as keyboard- or paper rustling sounds are gradually reduced to make the communication experience even more enjoyable for the listener.

**Convenient carry case**

PRESENCE™ UC versions come complete with a carrying case designed to protect your headset while keeping your accessories safe and at hand. With space for headset, dongle and USB charging cable, the case still fits conveniently into a pocket or bag. PRESENCE™ comes complete with both ear hook and ear sleeves.

## PRESENCE™ Mobile Series

PRESENCE™ has been designed with the user in focus, to ensure that every mobile professional gets the maximum value from their premium headset. Choose between these three variants to optimize your productivity.

### PRESENCE™ UC

is for mobile Unified Communications professionals who require a consistently excellent communication solution around the office, in the car and outdoors.

PRESENCE™ headband and charger stand are optional accessories.

### PRESENCE™ UC ML

is for mobile Unified communications professionals using Skype for Business, who require a consistently excellent communication solution around the office, in the car and outdoors.

PRESENCE™ headband and charger stand are optional accessories.

### PRESENCE™ Business

is for the mobile professional, who simply needs an excellent communication solution in the office, in the car and outdoors.

Carry case, USB dongle, PRESENCE™ headband and charger stand are optional accessories.

See more at [www.sennheiser.com/presence](http://www.sennheiser.com/presence)

### **PRESENCE™ Headband**

The optional headband for the PRESENCE™ headset can be worn on left or right ear and positions PRESENCE™ at the perfect angle to maximize speech clarity.

### **Charger stand: CH 20 MB**

Simply connect the charger to the USB output on your computer and place the PRESENCE™ headband in the charger stand for easy charging.

## **Optional Office Pack**

### **Comfort and convenience**

PRESENCE™ is designed to maximize your productivity in and around the office. With its optional headband wearing style and charger, you can swiftly put it on for calls and replace it in your charger stand when finished.

### **Remove office sound clutter**

Ideal for changing office environments, unique noise reduction technology allows you to hear and be heard in even the noisiest of environments – even killing reverb and echo in stairwells or lobbies and effectively muting annoying keyboard noises or rustling paper when you're on a call or Skyping.

## Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets and speakerphones depending on their needs. For professional users, that need is to communicate as effectively as possible.

With Sennheiser's range of headsets and speakerphones, the combination of Sennheiser sound leadership, quality design and build – and a focus on real life usability – give the best performance possible in offices, contact centers and Unified Communications environments.
